Alan--

Thanks for pulling this together. Very helpful! Since I won't be on the call tomorrow, I've included a few comments attached the group may want to consider.

The main being, is that I see the Ag issues as two-fold: (1) do we want to put add MMs on OR's program (which you t-ed up nicely); and (2) are we comfortable saying OR has satisfied the basic Ag CZARA requirements/conditions?

Attached is the Issues summary for Ag. We'll use this to discuss Ag on Tuesday, if we get that far. I will be in the field on Tuesday but I will try to call in for the discussion. I have also attached the issues document for Forestry - Riparian. Obviously I need to consolidate this document considerably. Let's use this for Tuesday's discussion. I will reduce it after our discussion.

Have a great weekend everyone.
